

## Keith Newman receives award

It's always wonderful to see someone deserving receive recognition.

Last week Keith Newman was given the Rotary Club Community Service Award for his work at Brambleton Hall and on the Farnham Corona Support Fund.

Keith has been the champion for the Brambleton Hall building project which will update the hall making it more useful to the greater community. He is passionate about the people living in the area as well as the Hall itself having been built by the community, for the community.

Over the lockdown Keith instigated household clearances to collect unwanted items for those in need including Fridge/freezers, washing machines, beds, furniture and smaller items. Surplus items have been taken to the Community Fridge and Warehouse where Keith has taken the time to listen to people's stories and to offer tangible help.

Thank you for all you have done!
